I always look forward to innovation and adding new ideas to make my work unique , I study my choices and decisions before acting

CORE COMPETENCIES

-
- Software Design/Architecture ☐ Front-end Web Development ☐ UX/UI Design
 - Agile Methodologies ☐ Systems Integration ☐ Front-end & Back-end Languages

PROFESSIONAL EXPERIENCE

Darrebnri

Frontend Web Trainee

Mar 2023 – Sep 2023

As I finished my training, I gained six months of experience in:

- Development web application using Angular, JavaScript, TypeScript, Html5, CSS3, Bootstrap.
- Developed and managed front-end applications with great user experience.
- work effectively with cross-functional teams.
- Implement best practices for UI/UX design.
- Proficiency in HTML, CSS, and JavaScript and frameworks such as (Angular , Bootstarp).
- Use repository tools (Git).
- Troubleshoot, debug, upgrade and test software to ensure responsiveness and efficiency.
- Built features and applications with a mobile responsive design.
- Capability to produce content on time, with attention to detail, and an emphasis on identifying and pitching to a target audience .
- My personal projects I've worked on to expand my skills and knowledge.

EDUCATION

Al-Baath University

Homs, Syria

Software Engineering

- GPA: 82.090%

PROJECT EXPERIENCE

Online Shopping App (E-marketing App)

- Fashion Shop is an angular web application, developed and designed using these technologies: HTML5, CSS3, Bootstrap, Typescript, Angular, PrimeNG and RxJS. I used Fake Store API to get all the products and their details and used angular routing to navigate between pages. | [Link](#) |

Weather App

- Web application that shows the temperature according to a person's geographical location, in addition to showing wind speed, humidity, highest temperature, and lowest temperature, Created Using: Angular, Typescript, HTML5, and CSS3. | [Link](#) |

Applications on JavaScript

- Multiple applications on JavaScript Created Using: HTML5, CSS3, and JavaScript. [QR Code](#) | [Text To Voice Converter](#)

Special Design

- Designed Using HML5, CSS3, and JavaScript, It has many features: Change the main color of the site to six colors, background image changes every five seconds, and bullet Which helps to navigate between sections of the site smoothly, Using slide-in and fade-in animation. | [Link](#) |

HTML&CSS Templates

- This websites has been developed using the following technologies: HTML5, CSS3, Bootstrap Designed to be compatible with all screen sizes. [Template One](#) | [Template Two](#) | [Template Three](#)
