

Abdullah Abbas

Software Engineer | Frontend Developer | Cyber Security Specialist

abdullah000abbas@gmail.com | [LinkedIn](#) | [Portfolio](#) | +963932063758

Highly skilled and detail-oriented Frontend Angular Developer with over 2 years of experience in designing and implementing user-friendly web applications. Proficient in Angular, TypeScript, JavaScript, HTML, and CSS. Adept at collaborating with cross-functional teams to deliver high-quality, scalable, and maintainable code. Proven track record of enhancing application performance and user satisfaction through innovative solutions and best practices.

Education

Bachelor of Software Engineering , Al-Baath University , Syria | 2019 - 2023

Work Experience

Freelance , Frontend Developer | Sep 2023 - Present

- **Technical Proficiency:** Proficient in HTML, CSS, JavaScript, and frameworks like Angular and Bootstrap
- **Software Maintenance:** Troubleshoot, debugged, upgraded, and tested software to ensure responsiveness and efficiency.
- **Mobile Responsiveness:** Built features and applications with a mobile-responsive design.

Darrebni Platform , Remote - Cyber Security Specialist | Mar 2024 - July 2024

- **Theoretical Knowledge:** Basics of networks, protocols, operating systems, cryptography, security devices, and technologies.
- **Practical Experience:** Web penetration testing to identify vulnerabilities in web applications.
- **Security Assessments:** Conduct comprehensive security assessments and penetration tests on many websites.
- **Tools Used:** Metasploit, Burp Suite, and Wireshark for vulnerability assessments and simulating real-world attack scenarios.
- **Monitoring and Incident Response:** Monitor network traffic and system logs for suspicious activity, investigate incidents, and coordinate response efforts.
- **Training:** Conduct training sessions and workshops on security awareness, threat detection, and incident response protocols.

Darrebni Company , Junior Frontend Developer | Mar 2023 - Sep 2023

- Worked on refactoring and optimizing legacy code, improving application performance by 20%.
- Helped in developing new product features and updates, leading to a 15% increase in user retention.
- Collaborated with UX/UI designers to enhance the usability of web applications, driving a 10% increase in user satisfaction.

Skills

- **Angular** : Expertise in Angular +2 frameworks, including Angular CLI, RxJS, and NgRx.
- **TypeScript** : Proficient in TypeScript for building scalable and maintainable code.
- **JavaScript** : Strong knowledge of JavaScript ES6+ features and best practices.
- **HTML/CSS** : Advanced skills in HTML5 and CSS3 for creating responsive and accessible web designs.
- **RESTful APIs** : Experience in integrating and consuming RESTful APIs.
- **Version Control** : Proficient in Git and version control systems.
- **Agile Methodologies** : Experience working in Agile/Scrum environments.
- **Web Application Testing** : Evaluating the security of web applications by assessing vulnerabilities such as SQL injection, cross-site scripting (XSS), and authentication bypass.
- **Problem-Solving Abilities** : Strong critical thinking and problem-solving skills to devise creative solutions for complex security challenges
- **Collaboration and Communication** : Working closely with developers, system administrators, and stakeholders to prioritise and address security issues effectively.

Projects

- **Big Show** is an Angular web application, developed and designed using these technologies: HTML5, CSS3, Bootstrap, Typescript, Angular. I used a movie database to get and search all movies and series and their details . | [Link](#) |
- **Fashion Shop** developed and designed using these technologies: HTML5, CSS3, Bootstrap, Typescript, Angular, PrimeNG and RxJS. I used Fake Store API to get all the products and their details and used angular routing to navigate between pages. | [Link](#) |
- **Weather App** Web application that shows the temperature according to a person's geographical location, in addition to showing wind speed, humidity, highest temperatureCreated | [Link](#) |
- **Multiple applications** on JavaScript [QR Code](#) | [Text To Voice Converter](#)
- **Special Design** Designed Using HML5, CSS3, and JavaScript, It has many features: Change the main color of the site to six colors, background image changes every five seconds | [Link](#) |
